HEALTH SPACES

Health Spaces Summary

About Inivos Health Spaces

Inivos Health Spaces is our business unit dedicated to providing rapid deployment of healthcare facilities to enable healthcare providers to increase capacity, improve patient flow and reduce the risk of infection.

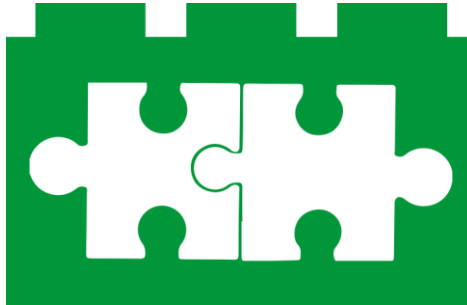

Our Turn-Key Building System

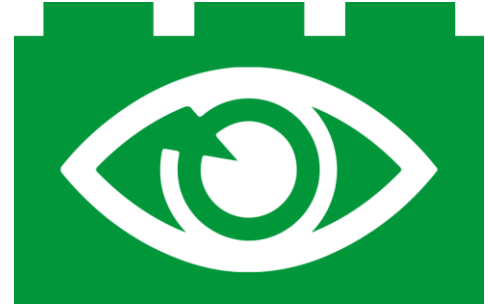

FLEXIBILITY

We design with the future in mind so we use construction methods that allow the space to be easily redeployed for another purpose at some point in the future

MODULARITY

We like to standardise the design and construction of the space around, what we call our hub and spoke design to ensure the space can be replicated in the future if needed

FOCUS ON PATIENT SAFETY

We like to fully understand the use of the space before we design it. Nurse to patient ratios, clinical activities, infection risks and patient safety and dignity

Inivos[®]
HEALTH SPACES

Rapid Deployment Facility

A turn-key modular build solution by Inivos Health Spaces

Turn-key Modular Ward Solution

- ✓ 100% single side rooms
- ✓ 'Spine and Wing' design for scalability
- ✓ Optimised for patient to staff ratios
- ✓ Designed to escalate and de-escalate quickly
- ✓ Rapid 13 week deployment
- ✓ Turnkey solution – flat land to operational clinical space
- ✓ Future proof with inbuilt design features to facilitate future reconfiguration

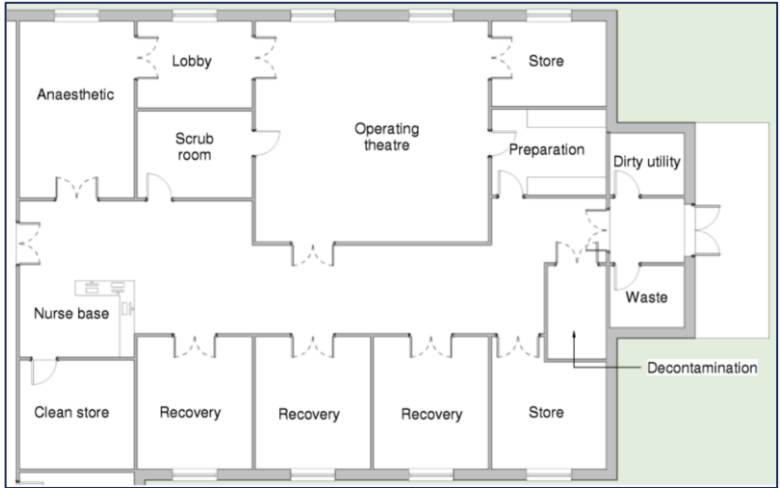

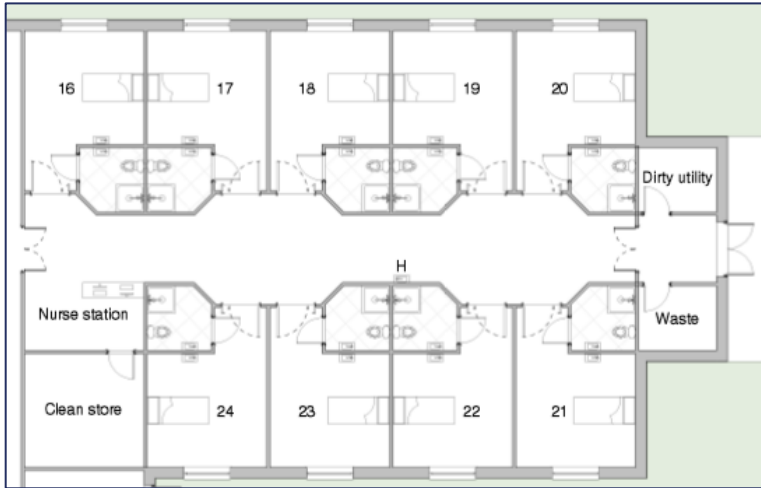

Future Flexibility & Rapid Reconfiguration

Initial construction

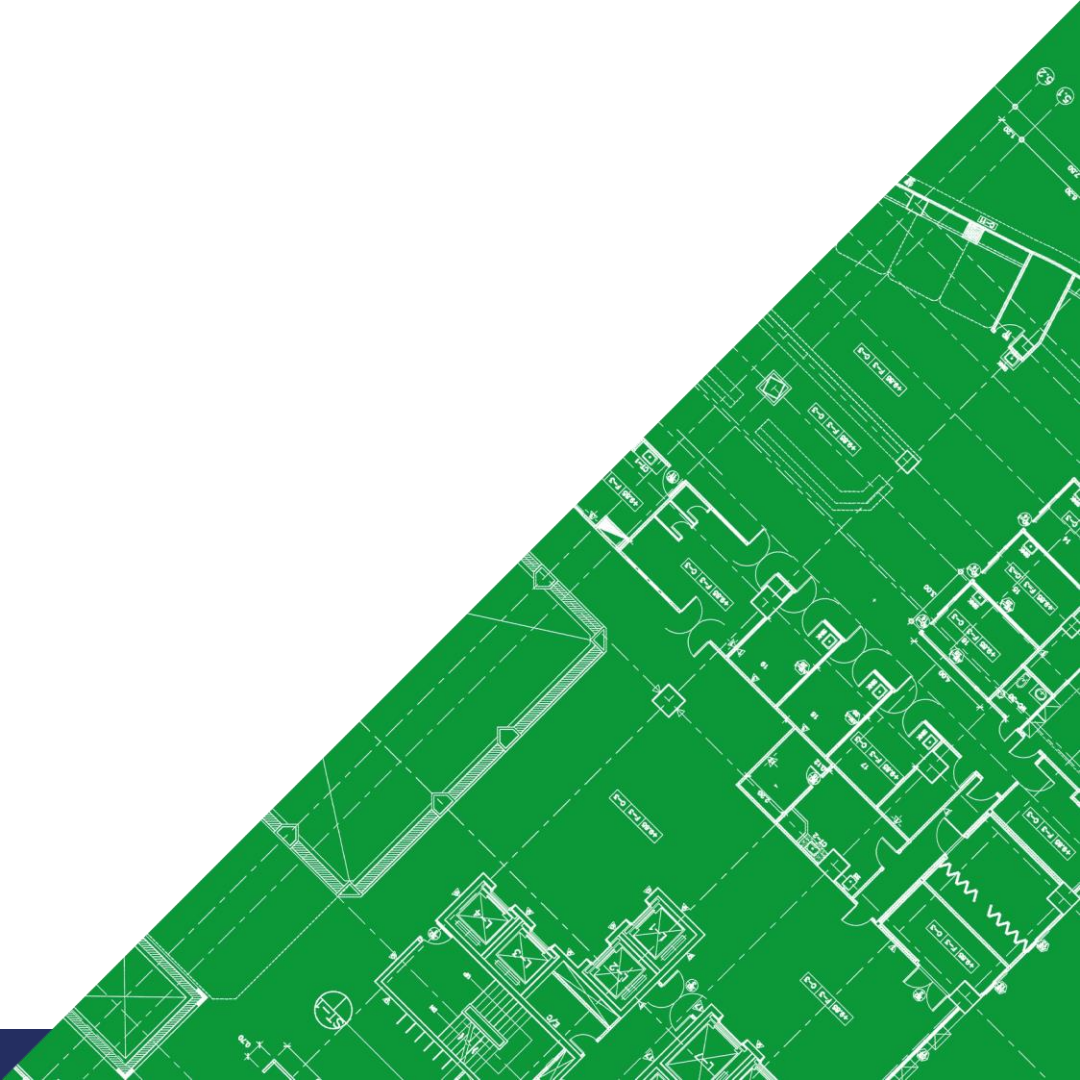

Future reconfiguration

Next Steps

1. Clarify the scope of the requirement
2. Identify a suitable location
3. Arrange a top-level strategy workshop

Inivos Health Spaces

Thank you
